## Petition

## To the House of Commons in Parliament Assembled

## Enact a "Policy to Reduce the Risk for Anaphylactic Passengers"

We, the undersigned citizens of Canada, draw the attention of the House of Commons in Parliament assembled to the following:

On Wednesday, May 22, 2013, Members of Parliament voted unanimously in support of Anaphylaxis Motion-230 "That in the opinion of the House, anaphylaxis is a serious concern for an increasing number of Canadians and the government should take the appropriate measures necessary to ensure these Canadians are able to maintain a high quality of life."
Dean Allison, MP Niagara-West Glanbrook
Anaphylaxis is a life-threatening medical condition now affecting 2.5 million Canadians. There is no treatment or cure.

Those with anaphylaxis are especially vulnerable while traveling on airlines at 35,000 feet in the air - far from emergency medical care.

Improved Transportation Safeguards- relating to airline and public transportation policies that reduce risks for food allergic passengers is a primary goal of the Canadian Anaphylaxis Initiative's 5-Point Action Policy as it relates to Anaphylaxis Motion-230.

Therefore, the Canadian Anaphylaxis Initiative and your petitioners request that Parliament enact a "Policy to Reduce the Risk for Anaphylactic Passengers" applicable to all forms of passenger transportation falling within its jurisdiction.

Sincerely,
